

### WRISTY BUSINESS

If you're not quite convinced by the slew of wearable tech coming from Silicon Valley superbrands, you'll love the latest partnership between Frederique Constant and smartwatch platform MMT. A teched-out timepiece that still looks as sophisticated as you would expect from a Swiss brand, the FC-285V5B4 (R16 995) keeps track of steps and sleep without that showy LCD display, bridging the gap between technology and style. Available at Picot & Moss. [picotandmoss.co.za](http://picotandmoss.co.za)

### ODE TO SIMPLICITY

Showcasing a contemporary selection of floating furniture, Ode's chic new showroom in Cape Town gives customers a tactile experience of the items they can order online. It's a warm, colourful space in which considered displays offer viewers the opportunity to visualise the brand's furniture, from floating desks and TV units to bed sets, in their own space. 83 Kloofnek Rd, Gardens, Cape Town, 021-510-7378, [ode.co.za](http://ode.co.za)

### BRIGHTEN UP

We love the colourful and cheery fabrics being produced by local textile designer Tamsin Arlow for her recently launched brand, Tambeau. Printed on organic hemp, her bold maiden collections are designed to last. [tambeau.co.za](http://tambeau.co.za)

### TEENAGE DREAM

Appealing to the tween DIY-er, these souped-up handbags from Dillon & Jada mean custom designs are accessible to young millennials, too. For your daughter's next birthday, book a design party at the Cape Town store and let the girls go wild with glitzy touches, fabric cutouts and embroidery to create their very own arm candy. R300 per bag maker. [dillonandjada.com](http://dillonandjada.com)
